

262.70 Education, prevention, and research programs in mental health and disability services.

The division of mental health and disability services of the department of human services may contract with the board of regents or any institution under the board's jurisdiction to establish and maintain programs of education, prevention, and research in the fields of mental health, mental retardation, developmental disabilities, and brain injury. The board may delegate responsibility for these programs to the state psychiatric hospital, the university hospital, or any other appropriate entity under the board's jurisdiction.
